WHITE PEOPLE ARE the most hated group on this planet today. Our very existence is threatened by media-fueled, institutionalized hatred. The media and institutions of our own countries have been turned against us and used to facilitate mass replacement migration on a scale unprecedented in human history. Super-wealthy and powerful haters (who pose as being "liberal" and "against hate") have made it nearly impossible for any candidate or public figure to rise who openly takes the side of White people. Some Whites have been corrupted by this hate campaign and actively work to dispossess their own people. Most

have been intimidated into keeping silent, keeping their heads down, and hoping for the best, a "strategy" that will lead to disaster and death. The National Alliance, founded by physicist William Pierce, is an organization of White men and women who know that our replacement by those who cannot bring White children into this world *must* be stopped. And we have a plan to accomplish that most moral and necessary goal. \$3 brings that plan to your mailbox.
